

## Institute, Wellesley Schedule Free Concert In Morss Hall

Several musical events will take place the second week of May. "Simmons Night at the Pops" on Thursday, May 7; and the combined orchestras of M.I.T. and Wellesley will give a free concert at Walker Memorial on Sunday, May 10. The Institute's Concert Band will combine with Tufts College, Sunday afternoon, May 10, at 2:45 to present a free concert at the Hatch Memorial Shell across the Charles River.

The Boston Pops Orchestra will have a different program on May 7 from that presented at "Tech Night at the Pops." Featured during the night's program will be the Simmons College Glee Club conducted by Professor Burton A. Cleaves. Simmons will open its program with Martin Shaw's "With A Voice Of Singing," followed by a "Tribute to Romberg"; "From Lucerne to Weggif On" (a Swiss walking song); and "Player" from "Hansel and Gretel" by Humpardink. Simmons' "Pop Night" will conclude with the College Hymn and the Simmons Marching Song. The concert will begin at 8:30 p.m., at Symphony Hall.

### Will Combine Orchestras

Wellesley and M.I.T. will combine their orchestras in Walker's Morss Hall, Sunday night at 8:15 p.m. Included in the evening's program will be Schubert's "Unfinished Symphony" (number 8 in B flat minor), "Bassoon Concerto" by Mozart, Gluck's Overture to "Iphigenia in Aulis" and "An Outdoor Overture" by Copland. The full orchestra will contain between 50 and 60 musical instruments. This will conclude the Spring program of the Institute's orchestra.

The M.I.T. Glee Club plans to have

a combined concert at Mount Auburn College sometime in May. Further information can be obtained through Professor Liepmann's office. A concert tour is being considered by the Glee Club during next year's spring term recess. However, nothing definite has been planned up to this time.

## Dutch Flood Film Will Be Shown Tonight In 6-120

Motion pictures of the Orinoco River, Venezuela, iron ore mining developments and of the recent flood disaster in the Netherlands will be presented tonight in Room 6-120 in a special session of the Institute Conference on Economic Development and Housing Abroad.

David M. Hansen of the Engineering Department of the Orinoco Mining Company, a subsidiary of U. S. Steel Corporation, will present a special colored motion picture of that development.

### To Show Flood Films

Films of the Dutch floods will be shown by Zander Yske van der Meer, Director General for Housing and Reconstruction, Ministry of Housing and Reconstruction, Netherlands. Mr. van der Meer will be introduced by Professor Laurens Troost, Head of the Department of Naval Architecture, who was until 1951 in charge of construction and operation of a large modern ship model basin at Wageningen, the Netherlands.

Both movies showing special housing problems in foreign nations will be open to the public.

The Conference, sponsored by the Albert Farwell Bemis Foundation at the Institute, opened yesterday morning with discussions of housing problems by economic and physical planners. Sessions today will describe contributions and problems in building and construction, and in planning, land economics, and research.

### Two Discussion Groups

In addition to the motion picture showing there will be two informal discussion groups this evening, one on prefabrication in the United States and abroad, and the other on research in solar energy, climate, and design.

Nine members of a building construction productivity team from the Netherlands, organized under the auspices of the Mutual Security Agency, will attend sessions of the Conference today. Over one hundred architects, foreign aid and housing specialists registered during the opening day of the Conference yesterday.

## Rogers Collection Of Books Now In Humanities Library

The Tubby Rogers Collection of attractively printed and bound books has been placed on the balcony of the Humanities Art and Literature Library as the first step in the establishment of a Tubby Rogers Room. The collection, fostered by Henry Seaver, Professor Emeritus of Architecture; Dean John E. Burchard of the School of Humanities; Eric Hodgins, noted author, and others, has been contributed in the main by former students of Professor Rogers. Mr. Seaver, however, has made by far the largest donation both in money and in fine editions.

Professor Sterg O'Dell, curator of the collection, has started a drive for additional funds to furnish the balcony with lounge chairs, sofas, rugs, and pictures, with which to convert it into an attractive browsing room which can also be used occasionally

## Killian Announces First Military Day In Institute History

May 14 has been established as Military Day at the Institute by President Killian. This marks the first time in the history of the Institute that an official Military Day has been recognized on campus. Sophomore and freshmen classes will end at 3:55 p.m. in order to assemble all R.O.T.C. cadets at Briggs Field for a one and one-half hour military ceremony. During the ceremonies honors and awards will be presented to outstanding students in the Institute's R.O.T.C. program. An inspection and a review will conclude the ceremonies.

### Army Inspection Due

On the same day starting at 10 a.m., the Army Federal Inspection Team will visit the Institute for the official annual inspection of the Army R.O.T.C. After a morning inspection of classes, offices and storage rooms, the inspection team will have lunch at the Faculty Club with President Killian, Dean Burchard and other Institute officials. Following a conference, the team will continue with an afternoon inspection ending at Briggs Field.

## Sell Options Again For Senior Week

Senior Week Options will be on sale for the last time this year starting Monday, May 4 through Friday, May 8. Cost of the complete weekend of events is \$12.00.

During this final week of option sales anyone who has already bought an option will be given a Class of '53 beer mug (as long as the supply of mugs lasts) provided that he brings a new customer to the option booth in Building 10.

The famous "Texas Fifth" will go to someone who has bought an option at some time up to and including May 8. A drawing for the "Fifth" will be held on the night of the Formal.

### Held At Sheraton Plaza

The Formal will be held in the Sheraton Plaza Hotel and will feature the music of Freddy Guerra's orchestra.

Plans for the Outing have now been completed, and this event will be held in the Blue Hills south of Boston. Transportation by truck will be provided.

Option holders may pick up their tickets before the end of the term.

### Schedule of Events

The schedule of events for Senior Week is as follows: Banquet—Friday, June 5; Informal Dance—Saturday, June 6; Outing—Sunday, June 7; Boat Cruise—Monday, June 8, and Formal Dance—Tuesday, June 9.

## Former Communists Will Stay On Faculty

Three Institute professors who told the House Un-American Activities Committee that they had been members of the Communist Party will be retained in their present positions in good standing, in a decision announced last Tuesday by the Executive Committee of the Corporation.

The professors who testified are Professor Isador Amdur (professor of physical chemistry), Professor William T. Martin

(head of the Mathematics Department), and Professor Norman Levinson (associate professor of mathematics). They told the House Committee last week that they had been members of the Communist Party from the late 1930's through the war years, but that they are not Communists now.

## Killian's Statement On Three Professors

Dr. James R. Killian, Jr., President of the Massachusetts Institute of Technology, and Dr. Karl T. Compton, Chairman of the Corporation have issued the following joint statement:

"The Executive Committee of the M.I.T. Corporation decided today that Professors Martin, Amdur, and Levinson, who testified freely and cooperatively before the House Un-American Activities Committee, will be continued at the Institute without change of status and in good standing.

### Opposed To Communism

"The Executive Committee has examined the present position and recent conduct of the three professors in the light of its long-standing policy with respect to the conduct and responsibility of its Faculty members. The Institute is unequivocally opposed to Communism. It is opposed to regimentation or control which dictates to scholars the opinions they must have and the doctrines they must teach. It believes that the teacher must be diligent and loyal in citizenship and that he must teach in the clear daylight without hidden allegiance or obligations which require him to distort his research or teaching in accord with dictates from without.

"While we in no sense condone the earlier associations with Communism of the three professors, nor would we tolerate the presence of a known Communist on our Faculty, we are convinced that since the true nature of Communism became apparent to them some years ago, they have been free of any sympathy for it and have disassociated themselves completely from it. They have spoken with candor about their past activities, and we are convinced that they are teachers of integrity and loyalty.

### Good Confidence

"Because of our confidence in them, as well as the candid manner in which they have reported on their past associations, we find no cause to change their status at the Institute.

"This decision of the Executive Committee was reached after a thorough review of the records of the three men and after hearing the report of a Faculty committee which examined the cases."

Institute's administration, Dr. Jerrold R. Zacharias, speaking as Chairman of the Committee on the Responsibility of Faculty Members said:

"The Committee concurs with the decision of the Institute's Executive Committee and believes that the three members of the faculty concerned acted with integrity, courage, and candor."

## Senior Wins Free Ticket For Dance

Ralph Block '53 won a free ticket to the All Tech Dance, to be held May 9 in Mechanics Hall, by finding a balloon in Building 10 with number nine attached. Marion Manderson '53, publicity chairman of the dance, plans another release of balloons next Monday morning. All balloons bearing a card ending in the number "9" entitle the finder to a free ticket to the dance.

The committee also plans to have leaflets dropped on the crowd watching the Compton Cup Crew Race tomorrow afternoon.

### Broke With Party

The decision by the Executive Committee was based on a conviction that the three professors no longer have any sympathy with Communism and have made a complete break with the Party. The Committee added that they did not condone the past associations of the professors, and that they would not permit a known Communist to hold a position on the faculty.

In the testimony of the professors before the Un-American Activities Committee two other Institute professors were named as having been members of the Communist Party about the same time. They are associate professor of electrical engineering, Lawrence B. Arguimbau, and suspended professor of mathematics, Dirk J. Struik. In a statement following the testimony last week, President Killian stated that the governing bodies of the Institute would consider the positions of Professors Amdur, Levinson, Martin, and Arguimbau, and would reconsider the case of Professor Struik. Professors Arguimbau and Struik were not mentioned in last Tuesday's statement of the decision of the Executive Committee.

The Executive Committee's decision was announced in a statement issued jointly by Dr. James R. Killian, Jr., President of the Institute, and Dr. Karl T. Compton, Chairman of the Corporation.

## T.C.A.'s Annual Drive For Blood Opens Next Week

"Give Blood" will be the order of the day as Technology Christian Association opens its annual spring Blood Drive, in conjunction with the Red Cross. It is hoped that for the five days from May 4 to May 8, from 9:45 a.m. to 3:45 p.m., donations will be received at the rate of 10 pints every 15 minutes.

The aid of the Military and Air Science Departments especially that of Captain Willard D. Anderson, of the Institute unions, and of representatives in the dormitories and fraternities has been enlisted in publicizing and securing pledges for the drive. The Faculty has been solicited by a committee of four which includes Professors F. Leroy Foster, Ivan J. Geiger, Edwin R. Gilliland, and Avery A. Ashdown. The Institute personnel department is allowing employees who are able and willing to contribute to do so during working hours without loss of pay.

All those over 21 years of age and in good health can give blood. Those between the ages of 18 and 21 who desire to donate must have the permission of their parents, which the T.C.A. will be glad to obtain for them.

The Blood Drive Committee, headed by Leroy G. Malouf '54, director, hopes to top last fall's collection of 871 pints, which broke all previous records. An added incentive to donors this year is the need for gammaglobulin in fighting polio and measles.

## Beaver Nine Wins, Rogan of Frosh Misses No-Hitter

Paced by the hitting and pitching of Allen M. Schultz '54, the Beaver nine scored a 5-4 win over Stonehill College. In addition to pitching a fine game, Schultz singled home the winning run in the top of the ninth.

Neither team played a particularly impressive game, with errors and sloppy fielding being the chief feature. Stonehill tallied twice in the fourth on two hits and a pair of errors, but the Engineers came back to tie it up. In the fateful ninth John Preschlack '54 walked, stole second, and raced home on Schultz' line single to the outfield.

Stonehill threatened in the last of the ninth, but Gifford Weber '55 replaced Schultz and retired the final man.

The win brings the Beaver's season record to two wins and three defeats. This week two games in the Greater Boston League are scheduled, against Brandeis at Waltham on Thursday, and at Tufts on Saturday. Hugh Hauser '55 is slated to start the Brandeis game, and Ted Slosek '54 will pitch against Tufts. At present the Techmen are in third place in the league, just behind Northeastern and Boston College.

### Rogan Hurls One-Hitter

Marshall Rogan came within one out of a no-hitter against the Northeastern Frosh before he yielded a single to the last man between him and Beaver baseball fame. Despite this brilliant performance, Rogan was defeated 2-1, as his mates failed to hit. Rogan fanned the first seven men to face him, and ran up sixteen strikeouts, but one of his rare walks, coupled with a wild pitch and two errors, brought in two unearned Northeastern runs in the fourth.

### AND AGAIN

Dormitory residents met with several faculty members last Friday to discuss the problems of dormitory rulings and regulations. It was immediately brought out that a major fault existed in poor communication between students and administration. This field admittedly requires much improvement and is to a considerable degree responsible for several misunderstandings which have arisen during the past few weeks. It is, however, all too often used as a "scapegoat" and a sole basis upon which to place the blame for all things wrong at the Institute. We must question further, therefore, to see whether or not the basic concepts and policies are themselves inadequate.

An interesting indication that this may be the case was exhibited at the meeting when Dean Bowditch reiterated his opinion that the faculty and administration were obliged to safeguard the individual from making the kind of mistake which might do him permanent harm. The Dean was under the impression that this was a philosophy of Dr. Farnsworth and asked him if this were not so. Dr. Farnsworth replied that this was not exactly his feeling and went on to clarify his opinion on the matter. He felt that if a student intends to take action which in the opinion of the people around him may be in error, he should be fully informed that serious consequences might result. However, if the individual is still intent upon taking such action he should be allowed to.

It seems evident to us at least that Dr. Farnsworth's remarks were not merely a rephrasing of the Dean's principle but expressed a distinctly different fundamental concept.

We are in total agreement with Dr. Farnsworth and strongly feel that his policy should be adopted by the Administration.

### WE TOO HAVE FAITH

We're for the idiots, the poor, stumbling, stupid idiots who come to college every year to take care of themselves. We feel real sorry for them, but we still like 'em.

College administrations all over the country, . . . have in recent years developed a policy of caring for these "idiots." These poor guys and gals are unable to take care of themselves, university authorities believe.

Dormitory supervisors, counsellors, house mothers, and advisers are all being crammed down our throats to "help us, guide us, keep us on the straight and narrow."

The universities, rightly, point to the early thirties and late twenties when college youth was wild, wooly and completely irresponsible. Then they turn around, rightly again, and say today's college youth is more mature, more responsible than his counterpart of 20 years ago. Why then, do we need more supervision?

We believe a certain amount of supervision is necessary, sure . . . College students need guidance, we agree. They have a certain responsibility to their university and to their fellow students. And they should be forced to live up to these responsibilities.

But they don't need to be coddled, "mothered," or "babied" in the process. How are you going to teach them to stand on their own feet if you constantly give them an easy chair?

We have faith in these "idiots." Their less responsible . . . parents came through their college years fairly unscathed. We honestly think we can do it, too.

The above article appeared last year in "The Hullabaloo," undergraduate publication at Tulane University, Louisiana.

### TO ACT WITH DISCRETION

That demonstrations have been planned for this evening is by now general knowledge. We are obliged, however, to view them with a great deal of concern. In a letter to the Editor appearing in an adjoining column Mr. Henderson has thoroughly indicated the aftermath which may very well develop should any student action get out of hand. The possibility of such serious consequences arising should not be taken lightly. We strongly urge students to be fully aware of those consequences. In the light of the recent congressional investigations (whose adverse publicity the Institute has admirably withstood) we hope that the disturbances being planned for tonight will be just another demonstration — just another crowd "letting off steam," endeavoring to perpetuate the traditional celebration of the "coming of spring."

## through the mail

To the Editor of THE TECH:

As one who has experienced growing concern over the possibility of a riot, I should like to present for consideration several aspects which may have escaped some students' attention.

In view of the recent investigations of M.I.T. faculty members concerning Communist affiliation and the growing public concern about "Reds" in the educational field, any demonstration which could possibly be linked with a "pro-Communist" group here among the students will doubtless rebound to the discredit of Tech as a whole and the student body as a group. The traditional May Day riots may have been amusing in the past; one this year would place the Institute in an extremely difficult position.

Perhaps even closer to home is the draft situation for most of us. As the draft boards have dipped lower and lower into the nineteen year old pool, the public has clamored more and more for a revision of the student deferment policy. Again here, a demonstration which smacks of immaturity and irresponsibility certainly will not help our cause. The tendency of certain Boston newspapers to view Tech news with less than complete objectivity should give us all concern at this point that we keep our house in order.

Finally, as students through their recognized student government officials press for continuation of the freedom we have enjoyed in the past and a recognition of student responsibility, we may properly consider the results of any demonstration. Participation in such a riot which smacks

of immaturity and irresponsibility is hardly the way to press for more freedom and recognition of student responsibility. Quite to the contrary, such displays could give the administration cause to consider far more stringent regulations than those about which we have been concerned of late.

In any rioting group there is often a feeling of "safety thru members." At Tech this feeling is hardly justified in view of the fact that mere identification of a student as having been present at the demonstration is deemed justification for punitive action against him.

I have mentioned these four aspects in hopes that all students will carefully consider them before deciding to participate in any demonstration. My concern is that many students will become involved in something the consequences of which they do not understand. It is my belief that the majority of students will display the same informed judgment they have in the past.

THOMAS J. HENDERSON '53  
 April 29, 1953

To the Editor of THE TECH:

In looking back it doesn't seem as if the publicity of the All Tech Dance committee has aroused the attention for which it was designed. This is unfortunate in view of what the committee has lined up for a good evening's entertainment. It has long been the desire to bring the MIT family—faculty, secretaries, freshmen, seniors, fraternity men, dormitory men, et al—together for a time of fun and relaxation.

Considering that the MIT Glee Club (which proved so popular at Tech Night at the Pops) will be there, the

unique feature of having table service, punch and refreshments, good music, a good possibility of having Richard Rodgers and members of his new show drop in, and the common interest of those attending—M.I.T.—the affair should be well worth going to. This could appropriately be called "the splurge before the purge."

CHARLES MASISON '54  
 President, Dormitory Committee  
 April 29, 1953

To the Editor of THE TECH:

I read Mr. Hayeem's article—Beirut—in your literary supplement. Frankly, I could not believe I was reading the LITERARY SUPPLEMENT THE TECH. I seriously doubt if this is all that the student body at M.I.T. is enthusiastic about.

An article for a school paper, in general, is of one or more of the following types: 1—Article of a literary nature with a decent subject matter; 2—It can be a source of some useful information; 3—It may be designed to spread feelings of goodwill and harmony.

It is obvious how neat and decent is the topic of the above mentioned article.

Does it give any useful information? Let us face facts; the event described is not something uncommon. I agree it is shameful that such places exist, but they exist all over the world without any exception. Most of us, perhaps know just too well, what goes on in certain parts of Boston. Same is true for Arabia, for Israel and for any other part of the world.

Does it spread any goodwill among men? Hardly. We must realize there are considerable number of foreign

They are perfect companions to the Twins of Championship tennis balls... the Spalding and Wright & Ditson.

## Harvard Crushes Tech Lacrossemen By 17 To 5 Score

Completely overwhelmed in the first half, the Beaver lacrosse team dropped its fourth consecutive game Wednesday afternoon, losing to Harvard, 17-5. The Crimson led by 9-1 at the half, and the Engineers never really got close, although they put on a mild rally in the third and fourth periods.

The less said about Beaver play in the first half the better. Scoring at regular intervals throughout the two periods, Harvard ran up a big lead. The only Tech score was made by John B. Brown '55, on a pass from John A. Trevitt '53. The Harvard scoring was paced by Waring, who eventually tallied six goals and two assists, and Ajello, who had five goals and five assists.

### Engineers Rally

The Johnnies tallied twice more in the early stages of the third period, but the Engineers then began to rally, paced by two goals by John H. Murray '53. However, the Beavers could get no closer than 11-4, and Harvard tallied three times in the final two minutes to increase their margin even more.

A big factor in the game was the decided manpower advantage enjoyed by Harvard. For example, the Crimson had no less than six separate midfielders, and consequently were able to change midfielders every few minutes. In contrast, Tech was able to boast only two and a half midfielders, and therefore the Beaver midfielders were hard pressed.

Despite the one-sided score, Harvard was not the best team that the lacrosse men have faced this year; the Beavers were simply well off their accustomed norm. Both the Boston Lacrosse Club and Dartmouth looked better in their outings against the Engineers than did Harvard.

The scoring in the game:

Harvard	6	3	2	6	— 17
M.I.T.	0	1	2	2	— 5

Tech scoring. Goals: Murray (2), Brown, Trevitt, Bartsch. Assists: Brown, Trevitt.

The next varsity game is scheduled for this Saturday afternoon, against the University of New Hampshire at Durham, N. H. The Wildcats are considered by the experts to be slightly better than the Techmen, but the Beavers ought to put up a stiffer battle than they have in the three most recent outings.

# Compton Cup Battle Looms Lt. Crews To Meet D'mouth

After a grueling week of tough training, in which a total of more than thirty-five miles of rowing were put in, the Beaver crew appears to be in fine condition for the dual race with Dartmouth and the Compton Cup Regatta with Princeton and Harvard tomorrow afternoon on the Charles.

The dual meet against Dartmouth is scheduled to go off first with the lightweight crews doing the honors. The first race of the afternoon will feature the light frosh at 1:00 P.M., with the J.V.'s to follow at 2:00 P.M. The light varsity which beat Harvard in a close battle in last week's opener will take to the river at 2:45.

### M.I.T. Safe Bet

On the basis of last week's showing and the Dartmouth record so far, Tech's light weight crews look like a pretty safe bet to win handily.

The heavyweight Frosh, J.V. and Varsity are to meet Princeton and Harvard later in the afternoon in the annual, classic, Compton Cup Regatta. The freshmen race is scheduled for 3:30, with the J.V. boat to follow at 4:00 and the Varsity due to a shove off at 4:30.

After this race the lightweight crews will be idle until May 23, the date of the Eastern sprint championships to be held at Princeton University.

Next action for the heavyweights is slated against Boston U. and Columbia on May 9. It will be recalled that the Varsity did not fall too far behind B.U. in last week's opener even with the lack of conditioning, but it should be a different story at this later date when the Beavers will be hitting their stride. Columbia lost its opener to Cornell.

### Baseball

(Continued from Page 1)

Tech rallied in the sixth, with two hits bringing in a run. However, a missed signal on a squeeze play killed the rally. In the ninth the Beavers worked a man to third base via a hit, stolen base and sacrifice, but two pop-outs ended the game.

This is the second fine pitching stint that Rogan has turned in, but he has lost both. In his first start he gave up only three hits, but poor support cost him the game.

# Canadians Rally, Tech Rugby Club Loses 16-6 Game

In a game played at Harvard last Saturday afternoon, the MIT rugby team lost a fast-paced contest to the Westmount Rugby Club of Montreal by a score of 16-6. In the opener of the double bill Harvard lost to Dartmouth 8-5.

Westmount scored first on a field goal early in the game, and Tech evened the game up soon after on a try by Chuck Johnson. Near the end of the first half Allan Munck scored to put MIT out ahead, and at the end of the half the score was 6-8 in Tech's favor. The Westmount club came back strong in the second half, and exhibited the skill that enabled them to beat all but one team in the recent Bermuda Rugby Week tournament. Westmount's players, all Canadians and Englishmen who have played the game for years, put their experience to good stead as they scored three tries, converted two of them, and wound up on the long end of a 16-6

count. The game was a hard-fought one all the way, and was a fine example of good clean rugby.

In a game played in the rain on Sunday, Harvard defeated a now tired Westmount team 6-5. The second game of the scheduled double-header, between MIT and Dartmouth, was cancelled because of the condition of the field due to the heavy rain.

### Rogers Collection

(Continued from Page 1)

and History (Humanities) in 1913, and his death at his home in Cambridge in 1941, Professor Rogers became one of the most beloved men to ever teach here. In addition to his work at the Institute, he was an author of many books, editor of the "Technology Review" for six years, and a columnist for the Boston Evening American.

Professor O'Dell, in a statement to THE TECH voiced "great hopes that the Tubby Rogers Room will become as great a cultural and instructional asset as the Music Room."

84 Boylston St., Little Bldg.  
8 Milk Street

Authorized and approved literature on Christian Science may be read or obtained.  
ALL ARE WELCOME

From Miami to Portland, Maine,  
Or Frisco to D.C.,  
You'll hear that old familiar phrase,  
"It's Lucky Strike for me!"

Richard E. Golden  
Emory University

So round, so firm, so fully packed,  
They're easy on the draw.  
A Lucky Strike for everyone --  
It ought to be a law!

John F. Stone  
University of Nebraska

Nothing-no, nothing-beats better taste

and LUCKIES  
TASTE BETTER!  
Cleaner, Fresher, Smoother!

Ask yourself this question: Why do I smoke?

You know, yourself, you smoke for enjoyment. And you get enjoyment only from the taste of a cigarette.

Luckies taste better--cleaner, fresher, smoother! Why? Luckies are made better to taste better. And, what's more, Luckies are made of fine tobacco. L.S./M.F.T.--Lucky Strike Means Fine Tobacco.

So, for the thing you want most in a cigarette... for better taste--for the cleaner, fresher, smoother taste of Lucky Strike...

Be Happy--GO LUCKY!

Poor Cinderella lost her shoe,  
Which her Prince Charming found.  
Their joy would have been more complete  
Had Luckies been around!

Josette Deutsch  
Brooklyn College

### Where's your jingle?

It's easier than you think to make \$25 by writing a Lucky Strike jingle like those you see in this ad. Yes, we need jingles --and we pay \$25 for every one we use! So send as many as you like to: Happy-Go-Lucky, P. O. Box 67, New York 46, N. Y.

(Continued from page 2)

has already broken several M.I.T.A.A. records in these events.
